Medico-legal practice

I have a strong track record as a medico-legal expert working across a wide range of settings, offering specialist assessment and consultancy including civil and criminal litigation, single joint expert, fitness to practice of healthcare professionals, criminal injuries compensation claims, and medical negligence. Medico-legal appointments at 2-3 weeks' notice in London rooms or by arrangement elsewhere. Contact our practice director to request appointments and provide instructions.

-

Career summary

I am one of the UK's leading neuropsychologists, with extensive experience and advanced training in neuropsychological assessment, interpretation and diagnosis, test design, and psychometrics. I have over 30 years' experience as a clinical and consultant neuropsychologist in the NHS and private practice. I lead the British Psychological Society's qualification in clinical neuropsychology; and provide specialist neuropsychological consultation, training and supervision to senior clinicians in NHS trusts and independent providers. I am a recognised expert in cross-language and cross-cultural neuropsychology; and have developed a range of test designed for work across cultures, and for minority ethnic groups in the UK, that are widely used in the NHS.
